Re.: MSDS REQUIREMENT EXEMPTION – **Clarithromycin Tablets USP 500mg**

Dear Sir/Madam,

Under 29 CFR 1910.1200(b)(6)(v), it is indicated that articles as defined as a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees are also exempted from the Hazard Communication Standard.

Moreover, under 29 CFR 1910.1200(b)(6)(vii), it is indicated that any drug, as that term is defined in the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.), when it is in solid, final form for direct administration to the patient (e.g., tablets or pills); drugs which are packaged by the chemical manufacturer for sale to consumers in a retail establishment (e.g., over-the-counter drugs); and drugs intended for personal consumption by employees while in the workplace (e.g., first aid supplies) are exempted from the Hazard Communication.

The above referenced product meets these criteria for exemption and hence there is no requirement for Vivimed to generate and/or provide one to its customers with a Material Safety Data Sheet for this product.

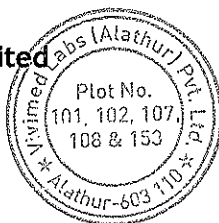

In addition, the requested product(s) are not regulated as hazardous material for shipping in accordance with the U.S. Department of Transportation (49 CFR 171-178).

If you have any further question, please do not hesitate to contact at (+91) (0)44 33524902 or [Raviprakash.S@vivimedlabs.com](mailto:Raviprakash.S@vivimedlabs.com)

Sincerely,

For Vivimed Labs (Alathur) Private Limited
